TECHNICAL DATA SHEET BT BLOEMENTAPIJTEN

BT BLOEMENTAPIJTEN is the exclusive distributor of Wildflower Turf Ltd.
Thanks to the unique, almost 'substrate-less' system of BT Bloementapijten's flower mats, it is possible to create an instant flower meadow. The flower mats root directly into the substrate, giving weed seeds no chance to germinate.

BT BLOEMENTAPIJTEN ROOF TURF

SPECIFICATIONS

- Minimum of 75% wildflowers
- Drought resistant

APPLICATIONS

- Public buildings
- Private homes
- Garden pavilions
- Carports

INSTALLATION INSTRUCTIONS

- Place flower carpet on roof substrate
- Immediately after placement and for the first 4 weeks keep sufficiently moist until sufficiently rooted
- An irrigation system is recommended
- Mow annually in autumn to a height of 3 cm
- Immediate removal of clippings
